

**Please ADD the following claims:**

- 68. (new) The biodegradable laminated film according to claim 30, wherein said other biodegradable resin layers comprise a blended polyester resin in which a polycaprolactone resin is mixed with a succinic acid-1,4-butanediol polyester, a succinic acid/adipic acid-1,4-butanediol copolyester, or an isocyanate-modified polyester thereof.
69. (new) The biodegradable laminated film according to claim 30, wherein the monoaxially or biaxially stretched form is produced using a stretching ratio of 1-10 times.--

**REMARKS****A. Status of the Pending Claims and Explanation of the Amendments**

Claims 30-35, 68, and 69 are pending in this application. Claim 30 has been amended to recite "[a] biodegradable laminated film in monoaxially or biaxially stretched form comprising a polycaprolactone layer with at least two other biodegradable resin layers, in which said polycaprolactone layer is sandwiched between two other biodegradable layers." Support for this amendment is found at page 111, lines 18-19.

Claim 68 is newly added. Support for claim 68 is generally found throughout the specification. For example, support for claim 68 is found at page 43, lines 14-18; page 45, lines 3-4; page 46, lines 3-14; and page 107, line 2 to page 108, line 15.

Claim 69 is also newly added. Support for claim 69 is generally found throughout the specification. For example, support is found at page 111, lines 19-20.

Applicants respectfully submit that no new matter has been added by these amendments.
